

BULOVA

MARINE STAR COLLECTION

Leading the way for sports timekeeping technology, this Bulova collection makes a stylish splash on land or sea.

- Delivers high-performance functionality and water resistance to 200 meters
- Sporty and ruggedly handsome with dive-watch detailing
- Collection includes 6-hand chronograph and 3-hand calendar movements
- Select ladies' styles feature hand-set diamond details and mother-of-pearl dials
- Select styles made of Duramic™, Bulova's proprietary lightweight nylon/ceramic composite for strength and durability or crafted in stainless steel
- Many styles with ratcheted unidirectional elapsed-time bezel rings, secure screw-down crowns and backs, and tachymeters

OPERATING THE MARINE STAR CHRONOGRAPH

This 3-subdial chronograph with built-in stopwatch can measure and display time up to 59 minutes/59 seconds and provide timing to 1/20th of a second. To conserve battery life, the 1/20th of a second hand moves continuously for 30 seconds after starting, then stops at zero position.

- To start chronograph timing, push button **A**.
- To stop chronograph timing, push button **A** again.
- To reset chronograph timing, push button **B**.
All chronograph hands will return to zero position.

READING THE MARINE STAR CHRONOGRAPH

- 1** Chronograph minutes (at the 9 o'clock subdial)
- 2** 1/20th of a second chronograph indicator measures up to 1/20th of a second (at the 3 o'clock subdial)
- 3** Regular second hand
- 4** Chronograph second hand
- 5** Inner rotating bezel dial ring (crown rotates inner dial ring that measures elapsed time)
