

BULOVA

RUBAIYAT

Rubaiyat is a name of poetic significance originally chosen by Bulova in 1917 – introducing its first female-focused watch designs to the world. Today, the collection celebrates a century past, fusing modern design with longstanding roots in the art of true craftsmanship and empowered femininity. Adorned by diamond detailing and unique crown placement at the utmost point of the watch's case, the stunning, regal elements of Rubaiyat collection are sure to be a crowning achievement to any aficionado's precious collection of timepieces.

Our newest Rubaiyats introduce a New Complication – a fully functional Moonphase aperture on a lustrous Mother of Pearl dial set with 8 diamonds. Two subdials indicating Day and Date complete the elegant dial details.

SETTING THE DAY (6H SUB DIAL)

- Pull the crown out to the 2nd position.
- Turn the hour/minute hands in a clockwise direction to set a day
- In order to set the day, you must advance the hour hand by 24 hours per day. NOTE: Do not set the day by turning the crown in counterclockwise direction. The day changes somewhere between 0:00a.m. and 5:30a.m. or a little later.

SETTING THE DATE (9H SUB DIAL)

- Pull the crown out to the 1st position.
- Turn the crown counterclockwise to set the date quickly. NOTE: Do not set the date between the hours of 9:00p.m. and 0:30a.m. the date may not change over the next day.

SETTING THE TIME

- After setting the day, set the hour and minute hands.
- Turn the hour/minute hands in a clockwise direction to set the time.
- To ensure time is set accurately, first turn the minute hand 5 minutes ahead of desired time and then turn back (in a counterclockwise) to the desired time.
- NOTE: Make sure you have correctly set AM/PM before setting the time. When the day changes over, it is a.m. (Day changes over between 0:00a.m. and 5:30a.m. or little later)

SETTING AND READING THE AGE OF THE MOON

- The moon phase represents the age of the moon, the actual shape of the moon during each phase is not represented.
- Use the moon phase only as a guide to the age and phase of the moon when reading and setting watch.

SETTING THE AGE OF THE MOON

- Pull the crown out to the 1st position.
- Turn the crown clockwise to advance the moon phase.

SETTING THE AGE OF THE MOON WITH AGE SCALE

- Check on the age of the moon for the day. Check the newspaper or other source for the age or phase of the moon for today or tomorrow. Subtract one day before a setting is made if the listings for tomorrow are used.
- Setting procedure (Example: age of the moon:4.4)
- Pull the crown out to the 1st position.
- Turn the moon disc clockwise until the center of the moon is in line with 4.4 on the scale.
