

WRIST SIZING KIT

HOW TO MEASURE YOUR WRIST SIZE

Print this page and cut out the ruler along the lines. When printing, be sure to check the printer properties and select '**print actual size**' to ensure your size guide is to scale. Otherwise, the ruler may not print to the correct size. After printing, be sure to check the printed version of the paper ruler against a physical ruler.

Cut a small slit where indicated and place the Accutron logo where the watch face will sit on your wrist. Feed the end of the ruler through the slit and loosen/tighten until you have your desired fit. Once you've found your desired fit, write down the size that the arrow points to.

It is important to understand there may be some small differences that must be allowed due to bracelet construction. In case a bracelet cannot be sized to your exact measurement we will size to the next size above the provided measurement.

BRACELET SIZING POLICY

Your bracelet will be sized to the measurement you provide us in centimeters. Any links we remove or add during the sizing process will be delivered to you alongside the watch.

Watches sized by Accutron United Kingdom at the time of purchase will not affect the return policy. If you would like to return your watch, it must be returned with any links that were removed during the sizing process.

Free of charge watch alterations will be limited to one per watch. Should you require further assistance with alterations after receipt, please contact our Service Department **support@accutronwatch.co.uk**.

Please be advised that sizing requests may result in a slight delay to your order being dispatched.
